Recommendations

HARDENED SILICONE

Remove as much silicone as possible with a scraper or cutter. Pour a generous amount of OK ONE on the remaining silicone and leave to work for 30 minutes. Remove the residue.

FRESH SILICONE, GLUE, MASTIC, PLANT RESIN

Apply a few drops of OK ONE on the surface and leave to work for about one minute. Then remove and clean with a damp cloth.

ADHESIVE LABELS

Apply a few drops of OK ONE directly on to the label. Wait a few minutes so you can remove it and then clean.

TAR ON CARS, MOTORBIKES

Pour OK ONE on to a clean cloth and dab the tar on the surface. Repeat after one minute. Then remove and clean.

Packaging available

250ml
